

Integrated Facilities Management

COMPANY PROFILE

Starting the journey in 1985 as NIS, National Investigation and Security, the company has come a long way following the single rule of service: Remaining Close. Our company has successfully developed the concept of Integrated Security Solutions and Facility Management.

NIS has a specialized cell run by senior professionals who are an expert in developing all security related SOPs, Manuals, Crisis Management Plans, Contingency Planning, and Occupational Safety and Health Policies.

At NIS we believe in building sustainable long-term relationships, which help us to deliver personalized services to our customers in all areas of work. Staying united, being compassionate and working diligently are the key factors that play a pivotal role behind our achievements.

OUR VISION

We shall become a stellar corporation. A million families will smile in NIS. NISTARS will get sustainable security, health, education and respect for themselves and their families. We shall not let a single NISTAR die uncared, suffer unattended and their family ever stare at hopelessness in crisis. We shall make profit honourably and professionally. We all together will delight our clients. Coal picked up from the bottom of the pyramid will be sparkling diamonds in our client's sites.

OUR MISSION

We shall be a professional service firm providing complete security & facility management solutions. We shall achieve significant market share in all relevant segments and adequate financial adequacy for growth and sustenance.
